How are the eggs arranged in the egg box?

How many eggs are there altogether in the box?

Andrew decorated 20 biscuits to take to a party.

He lined them up and put icing on every second biscuit.

Then he put a cherry on every third biscuit.

Then he put a chocolate button on every fourth biscuit.

So there was nothing on the first biscuit.

How many other biscuits had no decoration? Did any biscuits get all three decorations?

Put the right amount of sweets on each lollipop

How many ways can you make...?
